WINGS 1/1

## BUFCA SPREADS ITS WINGS

In order to facilitate the running and direction of the expanding spray applied polyurethane foam contracting industry, the British Urethane Foam Contractors Association has appointed a new Secretariat this month (August).

BUFCA is now based at P O Box 12, Haslemere, Surrey GU27 3AH, tel: 01428 654011; fax: 01428 651401; e-mail: info@bufca.co.uk; web: www.bufca.co.uk.

The new Secretariat has been appointed to assist the £30M industry in its expansion programme, to increase BUFCA's profile, to increase its membership base, and to add value to existing membership services.

The Secretariat was previously run by Eve Skidmore, now 86 years old, having managed the Association for 25 years, and looking forward to her retirement. Leonie Onslow-Dewey, aged 36, will now take over this role. She has over 20 years experience in running the Secretariats of national insulation trade associations and handling their public relations and lobbying requirements. She is looking forward to the new challenge.

BUFCA exists to promote the use of site spray applied polyurethane foam in many differing applications (for example in new and refurbishment domestic, agricultural, industrial and marine situations together with injected cavity wall stabilisation systems eradicating the problems associated with brick tie failures) and to uphold professional standards amongst its members. It provides authoritative technical advice in all aspects of design and application. The website www.bufca.co.uk provides a portal to access its members who are at the forefront of polyurethane foam technology.

Press enquiries to Leonie Onslow-Dewey on ☎01428 654011.
